

Allergy & Asthma of Southern Indiana does not interpret your insurance benefits. Therefore, it is strongly recommended that you contact your insurance company to inquire about **your specific plan benefits.**

It is your responsibility to confirm the following:

Does your individual insurance policy cover allergen immunotherapy (allergy shots)?

Is your insurance coverage considered “in-network” or “out of network”?

Do you have a deductible? If so, how much of your deductible has been met to date?

What percentage of charges does your insurance pay? Do you have a co-pay?
